# Adventure Aquarium 3/5/24

MACS cadets had the opportunity to explore the Camden Aquarium as well as get an exclusive look at what goes into caring for the animals. They participated in a behind-the-scenes tour that took them into fish-holding facilities, the water quality lab, food prep areas, and to the top of a 760,000-gallon exhibit where many animals live, including sea turtles and the famous hammerhead shark "Anchor".

The cadets were able to enjoy the many exhibits and activities at the aquarium. They especially enjoyed touching sharks, horseshoe crabs, stingrays, and starfish!
